

SERVICE STATIONS ESTABLISHED FOR 4TH JULY CELEBRATION

There will be a meeting of the executive committee of the Fourth of July celebration at the offices of Harry R. Grier tonight at 8 o'clock and all members are urged to be present as business of the greatest importance will come up and the final plans for the big two days celebration will be decided upon.

With the workmen fast putting the big granite rock in shape for the big jackhammer drilling contest and the jackhammers getting in their entries, things are commencing to assume a business aspect. The following entries have been received so far:

James Martin, of the Jim Butler; Geo. Lynch, of the Monarch Pittsburg; Abe Farrow, of the Monarch Pittsburg; Mike Chorovich, of the Italian; Mark Leitch, of the Spearhead; Goldfield; Bert Carley, of the Reorganized Cracker Jack; and T. M. Spencer, of the same company of Goldfield; William F. Gray, Jr., of the Red Hills of Goldfield; and Andy Linnell, of the Round Mountain.

W. H. Blackburn, chairman of the drilling committee wishes all contestants to specify what kind and class of machines they will use when entering the contest, so that the committee can properly classify all machines.

There will be no machines allowed with a piston of over 2 1/2 inches in diameter, as it is desired to confine the contest to regular hand jackhammer drills.

It is expected there will be at least 25 men on the rock when the entries close Saturday night at 6 p.

PERFECT ROADS LEFT AFTER WAR

(Correspondence Associated Press.) BEHIND THE BRITISH LINES IN FRANCE. June 2.—Hundreds of miles of the smooth white macadam roads of northern France will remain for many years after the war as a real memorial to the devastated towns which the Germans left in ruins after their retreat this spring.

All over northern France the roads are being widened and resurfaced with stone and rubble taken from the wrecked house of Peronne, Albert, Arras and countless other ruined towns and villages. As fast as the British soldiers clear away the debris of the towns it is piled into lorries and distributed in heaps along the main roads. There German prisoners told the day long pounding it into level patches which the great steam rollers, many of them bearing familiar American names, grind quickly into smooth macadam for the business of transport.

The brick and stone of these old buildings make as good road material as could be obtained anywhere, and the work of the German dynamiter has been so thorough that much of it is crushed fine enough to need no further preparation.

The roads of northern France were always excellent, but they were never better than today. The only complaint travelers had against them in the old days was that the paved strip in the center was too narrow. That complaint cannot be made after the British highway plans have been completed, for all the main highways will be macadamized to a width permitting three broad-gauge lorries to run abreast, and even the byways will have a paved surface wide enough to allow traffic to pass easily at any point.

Excessive dustiness is the only fault of the roads today, for war economies will not permit the use of precious oil on roadways.

There is little need anywhere in this district for straightening roads or altering routes, because the roads of northern France mostly run straight as an arrow's flight. Most of the great highways were laid out in Napoleon's time by military surveyors and their strategic value and importance has always been kept prominently in mind by the French government.

William II. will go down in history as the man who turned the world against Germany.—Pittsburg Post.

How it would have tickled Andrew Jackson or Israel Putnam or Patrick Henry to see such an army!—Pittsburg Post.

It isn't altogether a joke that many went to war who married to escape it.—Atlanta Constitution.

Another thing—when a king feels his crown slipping does he wrinkle his brow?—Dallas News.

OLYMPIA GOES ASHORE IN FOG

DEWEY'S OLD SHIP RUNS AGROUND IN FOG OFF BLOCK ISLAND

(By Associated Press.)

NEWPORT, R. I., June 27.—The crew of the cruiser Olympia, which went on the rocks off Block Island yesterday, abandoned the ship on orders and were brought to the naval station here. Other warships are standing by. She was reported to be badly damaged.

The Olympia ran aground in the fog off Block Island. The cruiser was reported in a bad position with considerable water in her hold.

Chief Machinists Mate William M. Babb lost his life when he was struck on the head by a falling hatch. No other fatalities were reported.

Warships and wrecking vessels were standing by the ship last night. The sea remained calm, but it was reported that as a precautionary measure a part of the crew had been taken off.

The Olympia put out yesterday for target practice and it is supposed she

BE-CANNY

Every can! Put your spare time into cans and jars.

Home canning is kitchen patriotism.

Don't have an empty preserving jar in your neighborhood next fall.

If you have more preserving jars than you can fill lend them to a neighbor who will make them work for the nation.

Some neighbor surely can eat or put up surplus products from your place.

A quart of canned peaches or tomatoes on the shelf is worth a bushel rotting on the ground.

See that the shelves in your preserving closet sag just a little this year.

SPANISH PREMIER SAYS HIS COUNTRY IS CALM

(By Associated Press.)

MADRID, June 27.—Premier Dato said he believed the government measures had been well received by the public. There is absolute calm throughout the country.

Of course the aviator may have other troubles, but anyhow his wife can't put her foot down on him.—Dallas News.

struck during the thick fog which stretched far out from shore. Details of her exact position could not be learned here.

UNIFORMS POPULAR WITH ALL CLASSES

(Correspondence Associated Press.)

LONDON, June 2.—There has never been a time when women were more willing to accept standard dress or uniforms than they are at present.

That is the most marked effect of the war upon women's dress. All uniforms have acquired dignity in women's eyes. The housemaid does not object to the cap and apron badge of servitude, the worker in the bank dons an overall cheerfully, women in various organizations wear their khaki, the Red Cross and volunteer aid workers are proud of their uniforms.

An expert French designer, discussing these changes, says: "There always will be the women who want frilleries, the women who try to insist upon something quite different from the style of the moment, but nowadays their number is greatly diminished. The uniform idea has arrived. It may mean the total extinction of dressmaking as a creative art, but there will be developments on other lines."

"There has never been a great war which has not influenced fashion in a picturesque or even grotesque way, and this world war has done its
